Back by popular demand! LACHL is once again hosting Deaf/Hard of Hearing panelists from Gallaudet University who are generously volunteering their time to provide information to our families. The Panel will offer insight into what it was like growing up with hearing loss and what types of things worked/didn't work for them growing up in school and in situations outside of school.

Questions for our panelists can be emailed to mphotinakis@netzero.com by April 14th.
